MSc Business Analytics
Key Modules: Global Business Strategy, Predictive Modelling, Big Data Security, Data Visualisation.

North American University **October 2011 – July 2015**
BSc Computer Science
Key Modules: Data Structure and Algorithm, Database Design and Management, Web Programming, Statistical Methods, Artificial Intelligence, Numerical Computation and Software Development Techniques.

New World High School **September 2009 – June 2011**

EMPLOYMENT

EE (BT Group) | Manchester, UK **January 2025 - Present**
EE (part of the merged BT Group) is a leading UK telecommunications provider offering broadband, digital TV, mobile, and landline services to over 5 million subscribers nationwide.

Data Analyst *(Customer Analytics)*

- Analysing customer behaviour datasets (broadband, TV, landline, digital home phone) to identify retention risks and upsell opportunities, improving customer lifetime value (CLV) by 12% through targeted campaign strategies.
- Developing interactive Power BI dashboards to monitor real-time customer churn rates, service adoption metrics, and NPS trends, enabling agile decision-making for 5M+ subscribers.
- Partnered with marketing and product teams to design A/B tests for promotional bundles (e.g., broadband + TV), achieving a 20% increase in cross-sell conversion rates.
- Optimising ETL pipelines using Python and SQL to automate customer usage reporting, reducing manual data processing time by 30% and ensuring timely delivery of insights.
- Led root-cause analysis on customer complaints data to identify service gaps, driving a 25% reduction in escalations through actionable insights shared with operational teams.

Overland Airways Limited **April 2021 – January 2025**
Overland Airways is a private airline providing domestic flights to 10 destinations within Nigeria and across West Africa.

Data Analyst (Remote)
- Optimised airline operations by analysing on-time performance, safety metrics, and operational KPIs, achieving a 15% improvement in punctuality and a 10% reduction in safety incidents.
- Spearheaded integration of flight operations data with predictive maintenance analytics in cross-functional reports, boosting operational efficiency by 20%.
- Conducted time-series analysis of 5-year flight data using Python and AeroCRS, identifying fuel usage and routing trends to generate £25K annual savings.
- Designed dynamic Power BI dashboards tracking 20+ KPIs, enabling data-driven decisions for 500+ stakeholders and driving a 10% rise in customer satisfaction.

Lakeview Falls International Limited **July 2018 - April 2021**
Lakeview Falls International Limited is a leading importer and seller of licensed goods, from toys and clothing to home décor and electronics.

Data Analyst
- Automated cross-departmental reporting by deploying Tableau and Power BI dashboards, reducing time-to-insight by 35% and accelerating data-driven decisions by 15% for leadership teams.
- Streamlined BI operations by creating a centralised repository of 10 reusable analytics models and templates, cutting report generation time by 30% and ensuring consistency across teams.
- Designed SQL database structures (tables, views) to optimise storage and retrieval efficiency, boosting query speeds by 40% for mission-critical financial and customer systems.
- Eliminated 25% of system-wide data errors by introducing validation rules and deduplication protocols, ensuring GDPR-compliant data governance and improving trust in analytics outputs.

F&R Projects **June 2017 – July 2018**
F&R Projects is a Lagos-based public relations and creative consultancy that provides its clients with uniquely tailored PR experiences that cater to their individual and specific needs with a creative flair.

Marketing Data Analyst
- Spearheaded 4 targeted marketing campaigns that exceeded audience engagement goals, driving 60% revenue growth and acquiring 500+ new customers within 12 months.
- Orchestrated 3 social media initiatives and improved organic search rankings by 15 positions, contributing to a 40% revenue surge through enhanced brand visibility.
- Delivered 20 data-driven digital strategies with actionable insights (pivot tables, trend analysis), uncovering 3 critical market trends that informed senior leadership's decision-making.
- Leveraged Google Analytics to audit 15 campaigns, identifying 7 optimisation opportunities that boosted campaign ROI by 25%.
